**Subject:** Microsoft Settlement

May I add my voice as you consider the settlement of the Microsoft case. The suite brought against Microsoft and subsequent judgment was the beginning of the recession we find ourselves in at present. Please settle this matter as presented by Microsoft so it serves to lead us out of the recession and on the road to recovery. Our Congress is dragging it's feet. The Department of Justice can make a major contribution in moving our economy forward by rendering a timely decision.
